Game Notes:

First game of the 2015-2016 Season versus AC Miami U8. A very recreational team in a small field with small goals we dominated the game and scored multiple goals although there could have been more. Improved performance defensively and tactically from the scrimmage the day before versus the U9 C team. Ross was prolific in front of goal, our wing players penetrated regularly and came back to defend, and we had some great midfield play from Oscar. Much work still to be done with this team in terms of tactical positioning defensively and offensively as well as working combination play, 1v1 defending, and finishing.
